

Service and Maintenance

for all wastewater treatment systems

Getting the
right supplier
for the right
job with WPL

'No Worries' service and maintenance from WPL

On site Service & Maintenance contracts for:

- WPL Sewage Treatment Plants
- Microscreens
- Pump stations feeding to/from wastewater treatment plants
- Wastewater treatment plants from other manufacturers (subject to initial inspection)

Consistently excellent service

from British Water accredited service engineers

WPL provide a national call-out and maintenance service to water utilities and commercial sites throughout the country. With over 20 years experience providing services to our satisfied customers, we have a well established reputation for expertise, rapid response and friendly customer focussed service.

As WPL manufacture wastewater treatment plants, we can offer expert advice on product maintenance, legislation and environmental impact.

We keep you in Environment Agency discharge standards

Preventative maintenance:

A WPL Service Contract saves through life operating costs, keeping plant operation efficient and trouble free.

A contract can also reduce de-sludging frequency, and keep plant power consumption to a minimum. Our contracts ensures plants remain compliant with EA discharge standards and they reduce environmental impact of your wastewater - a legal requirement.

It can also help you to avoid potential pollution problems.

Authentic replacement parts:

When you take out a maintenance contract with WPL, you can rest assured that we will always have the right parts for your plant.

If we should need to replace anything, we will always use genuine spares and complete work with a minimum interruption. All spare parts carry the WPL Warranty.

Fixed Service Contracts

	Standard annual	2 year Plus	Fully inclusive
Routine maintenance visits (per annum)	4	4	6
On-site plant health check	X	X	X
On-site sludge testing	X	X	X
Blower maintenance	X	X	X
Solid waste disposal			X
De-sludging		at cost price	X
Pump maintenance	X	X	X
Electrical testing			X
Replacement parts	at list price	10% discount	free
Emergency 24-hour call-out			X
Remote monitoring (if applicable)			free
Priority site attendance			X
Professional advice			X

Standard annual contract

Our standard contract is renewed on an annual basis and it offers a set number of site visits per year, along with on-site plant health checks, sludge testing, and blower and pump maintenance.

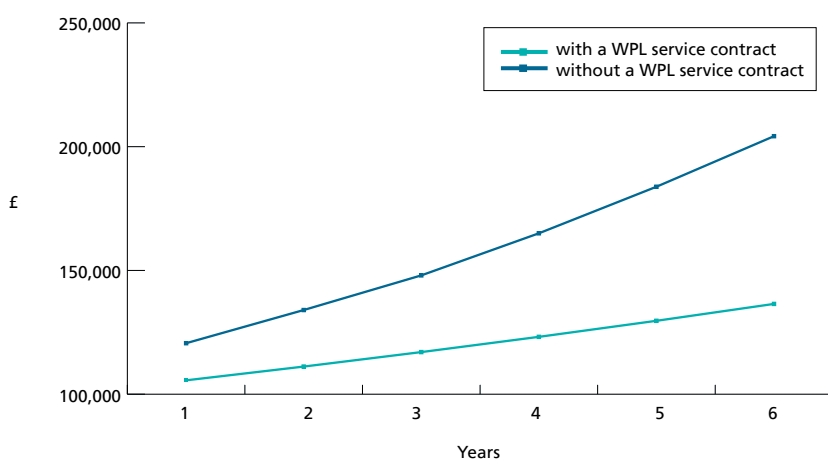

2 year Plus contract

Fix your standard 1 year contract price for 2 years and get some additional benefits, including a 10% discount on replacement parts and the ability to tailor your contract to meet site requirements. We will also manage your plant de-sludging at cost price.

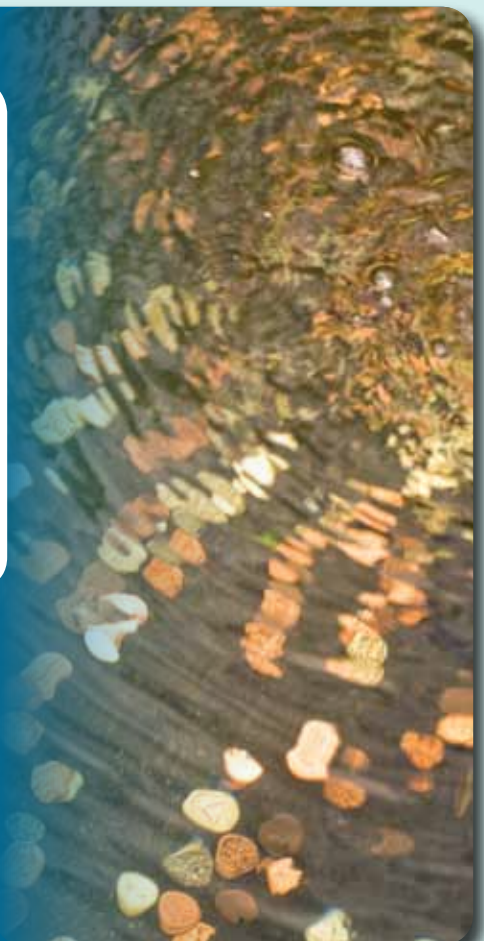

Fully inclusive contract

Our fully inclusive, fixed rate, 5 year contract includes all features in our 2 year Plus contract and includes plant optimisation, capital investment to reduce running costs (where required) and remote monitoring to ensure your plant remains compliant.

WPL Service Contracts can save you money over time

This graph shows the actual and future savings that Hampshire Cosmetics have and will make by having a fully inclusive service contract from WPL. The contract is self funding through the savings made, with little capital outlay at commencement of the scheme.

Regular Maintenance & Servicing

The Environment Agency requires all sewage treatment plants to be operated in accordance with the maintenance plan specified by the manufacturer.

A WPL Service Contract gives you peace of mind to know that this is all taken care of for you, as all our service engineers are fully qualified and accredited by British Water.

With over 20 years experience in effluent treatment, WPL have a wide range of internal skills and an extensive service team, continuing to offer development and support to all our customers

About WPL Limited

WPL Limited provides innovative and reliable wastewater treatment, rainwater harvesting and grease management systems for domestic, commercial and industrial markets as well as holding a prominent position as a supplier to the water companies. As an internationally recognised leader in the design, manufacture and supply of both standardised, and bespoke environmental solutions, WPL Limited is dedicated to ensure the provision of high quality products and services.

Environmental Policy

WPL Limited is ISO14001 accredited. WPL Limited rigorously fulfils its vision of protecting the environment by delivering reliable wastewater solutions. A strong focus on quality and compliance ensures that all wastewater treatment systems are designed to work within the guidelines of the British Water Code of Practice and exceed all present and proposed discharge consent standards enforced by the Environment Agency, SEPA and other regulatory authorities.
